

# For Montana Providers working with Pregnant and Postpartum Patients

Free. Confidential. 24/7.

[www.prismconsult.org](http://www.prismconsult.org)

A free webinar series presented by PRISM for Moms

PRISM Presents is a free webinar series covering important topics around mental health during the perinatal period. Our expert hub will present didactics that will empower clinicians in evidence-based best practices in the care and treatment of pregnant and postpartum patients who have mental health concerns. All topics are outlined below and include medication management, behavioral therapies, and access to community resources. All trainings are presented free of charge to Montana providers.

## THE DETAILS:

- No Cost
- Second Wednesday of the Month
- 12:00 - 1:00 MST
- Hosted by the expert hub at PRISM for Moms
- Topics listed below

## ABOUT PRISM FOR MOMS

PRISM for Moms is a subspecialty psychiatric consultation service for Montana-based clinicians caring for patients in the perinatal period. Clinicians are welcome to use this service to discuss psychiatric diagnosis and treatment options for patients who are pregnant or who are in the postpartum period.
